The image displays two diagrams of an Air Canada aircraft cabin layout, illustrating a reconfiguration from a standard 3-3-3 setup to a 2-2-3/2-2-2 setup.

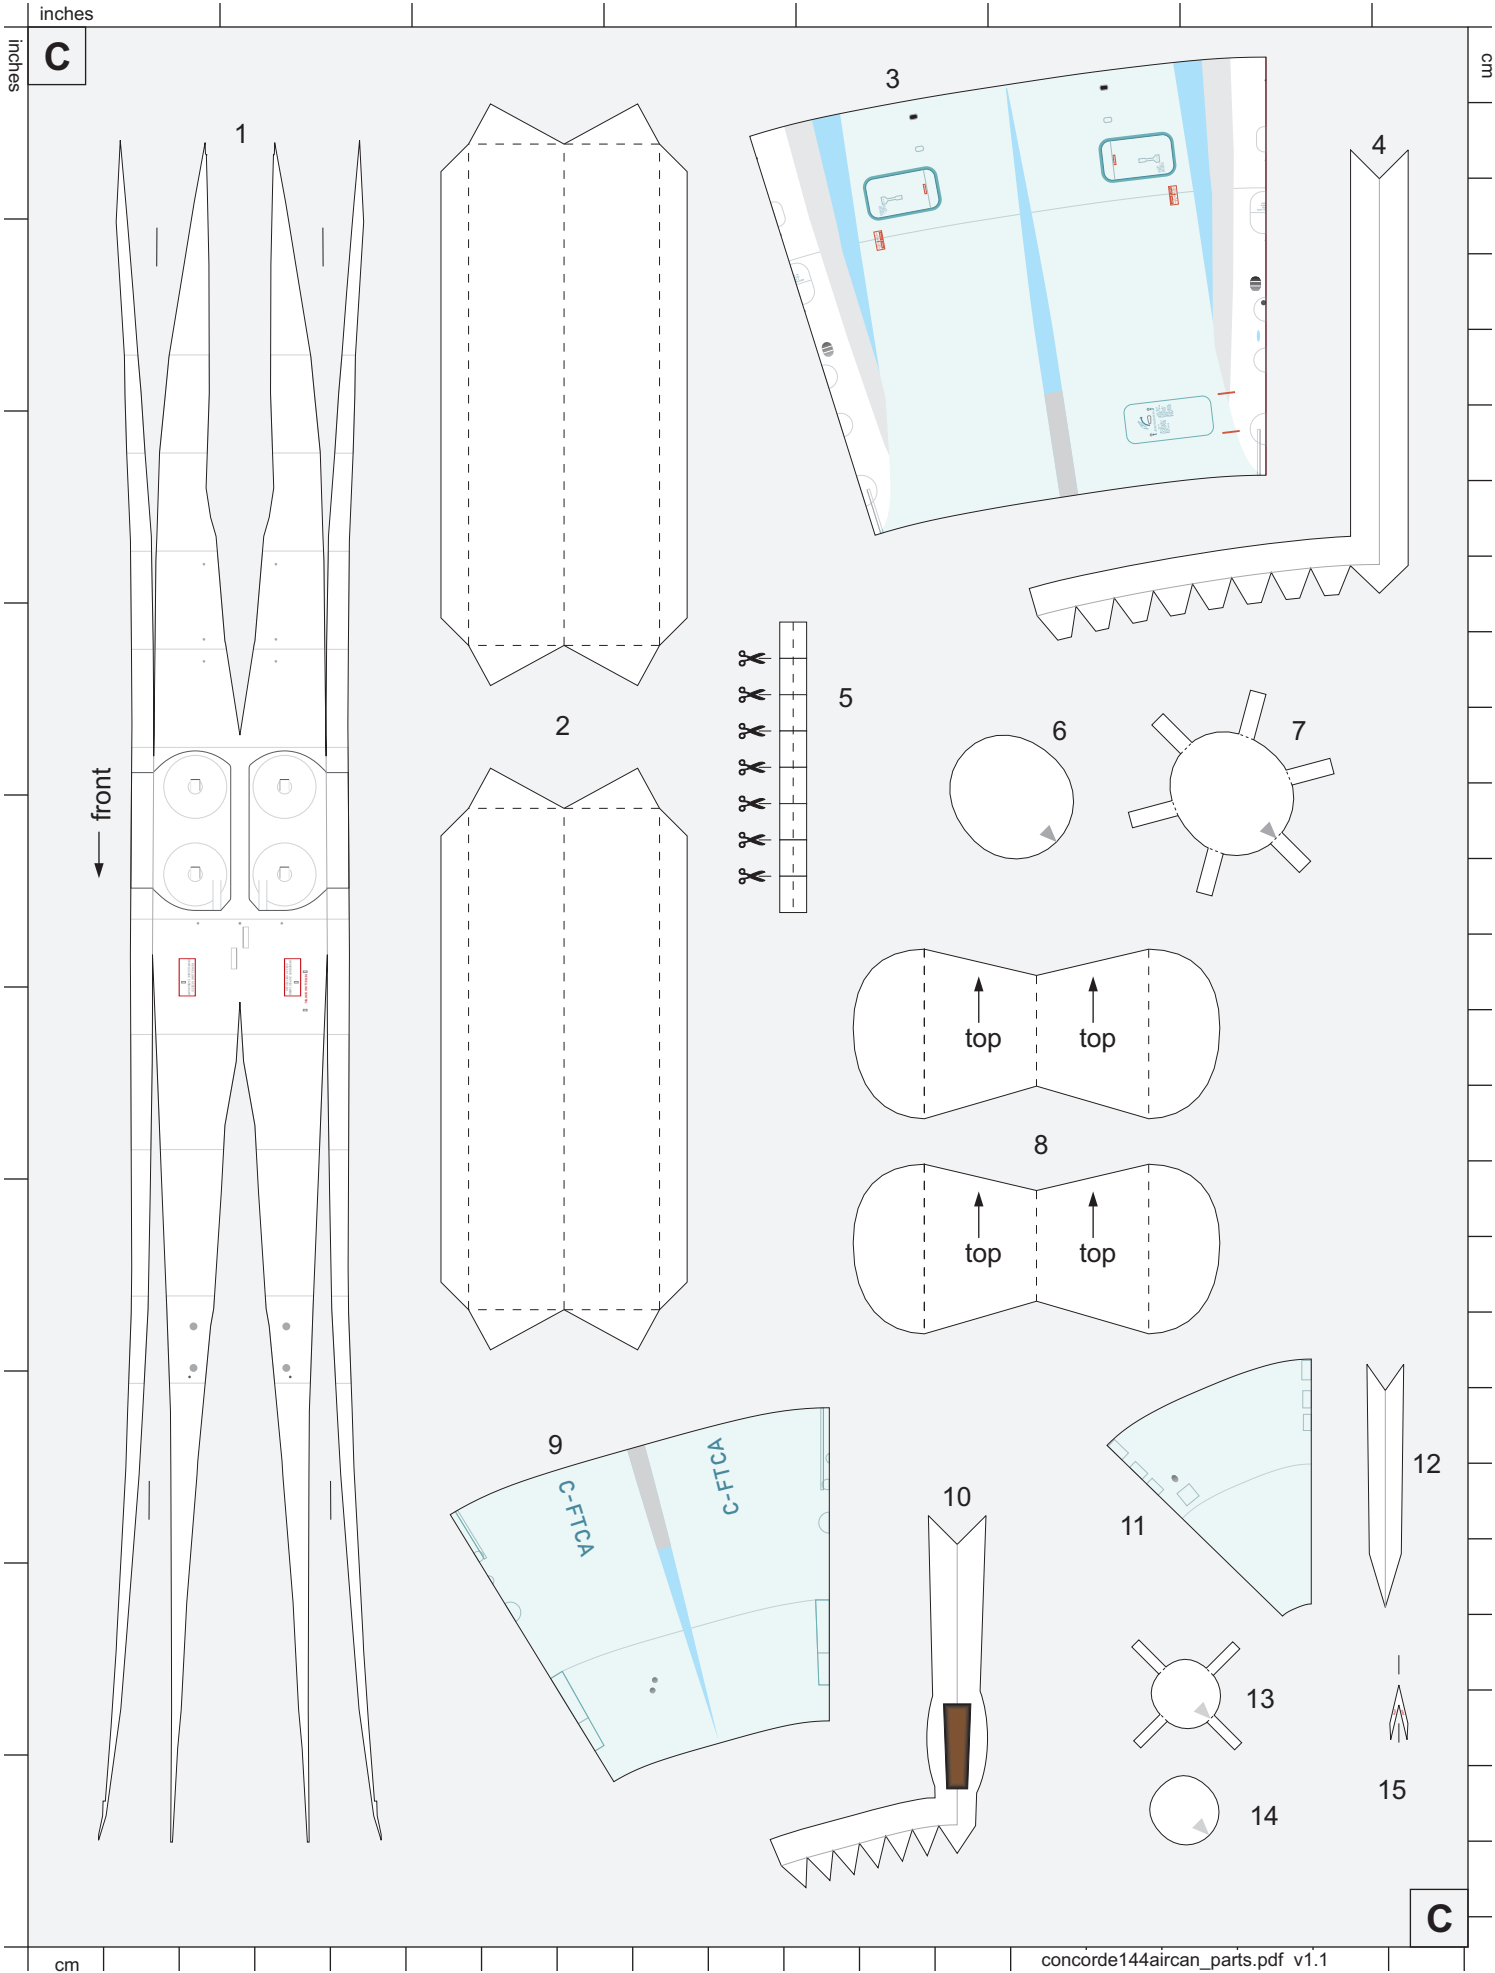

Top Diagram (Standard 3-3-3 Configuration):

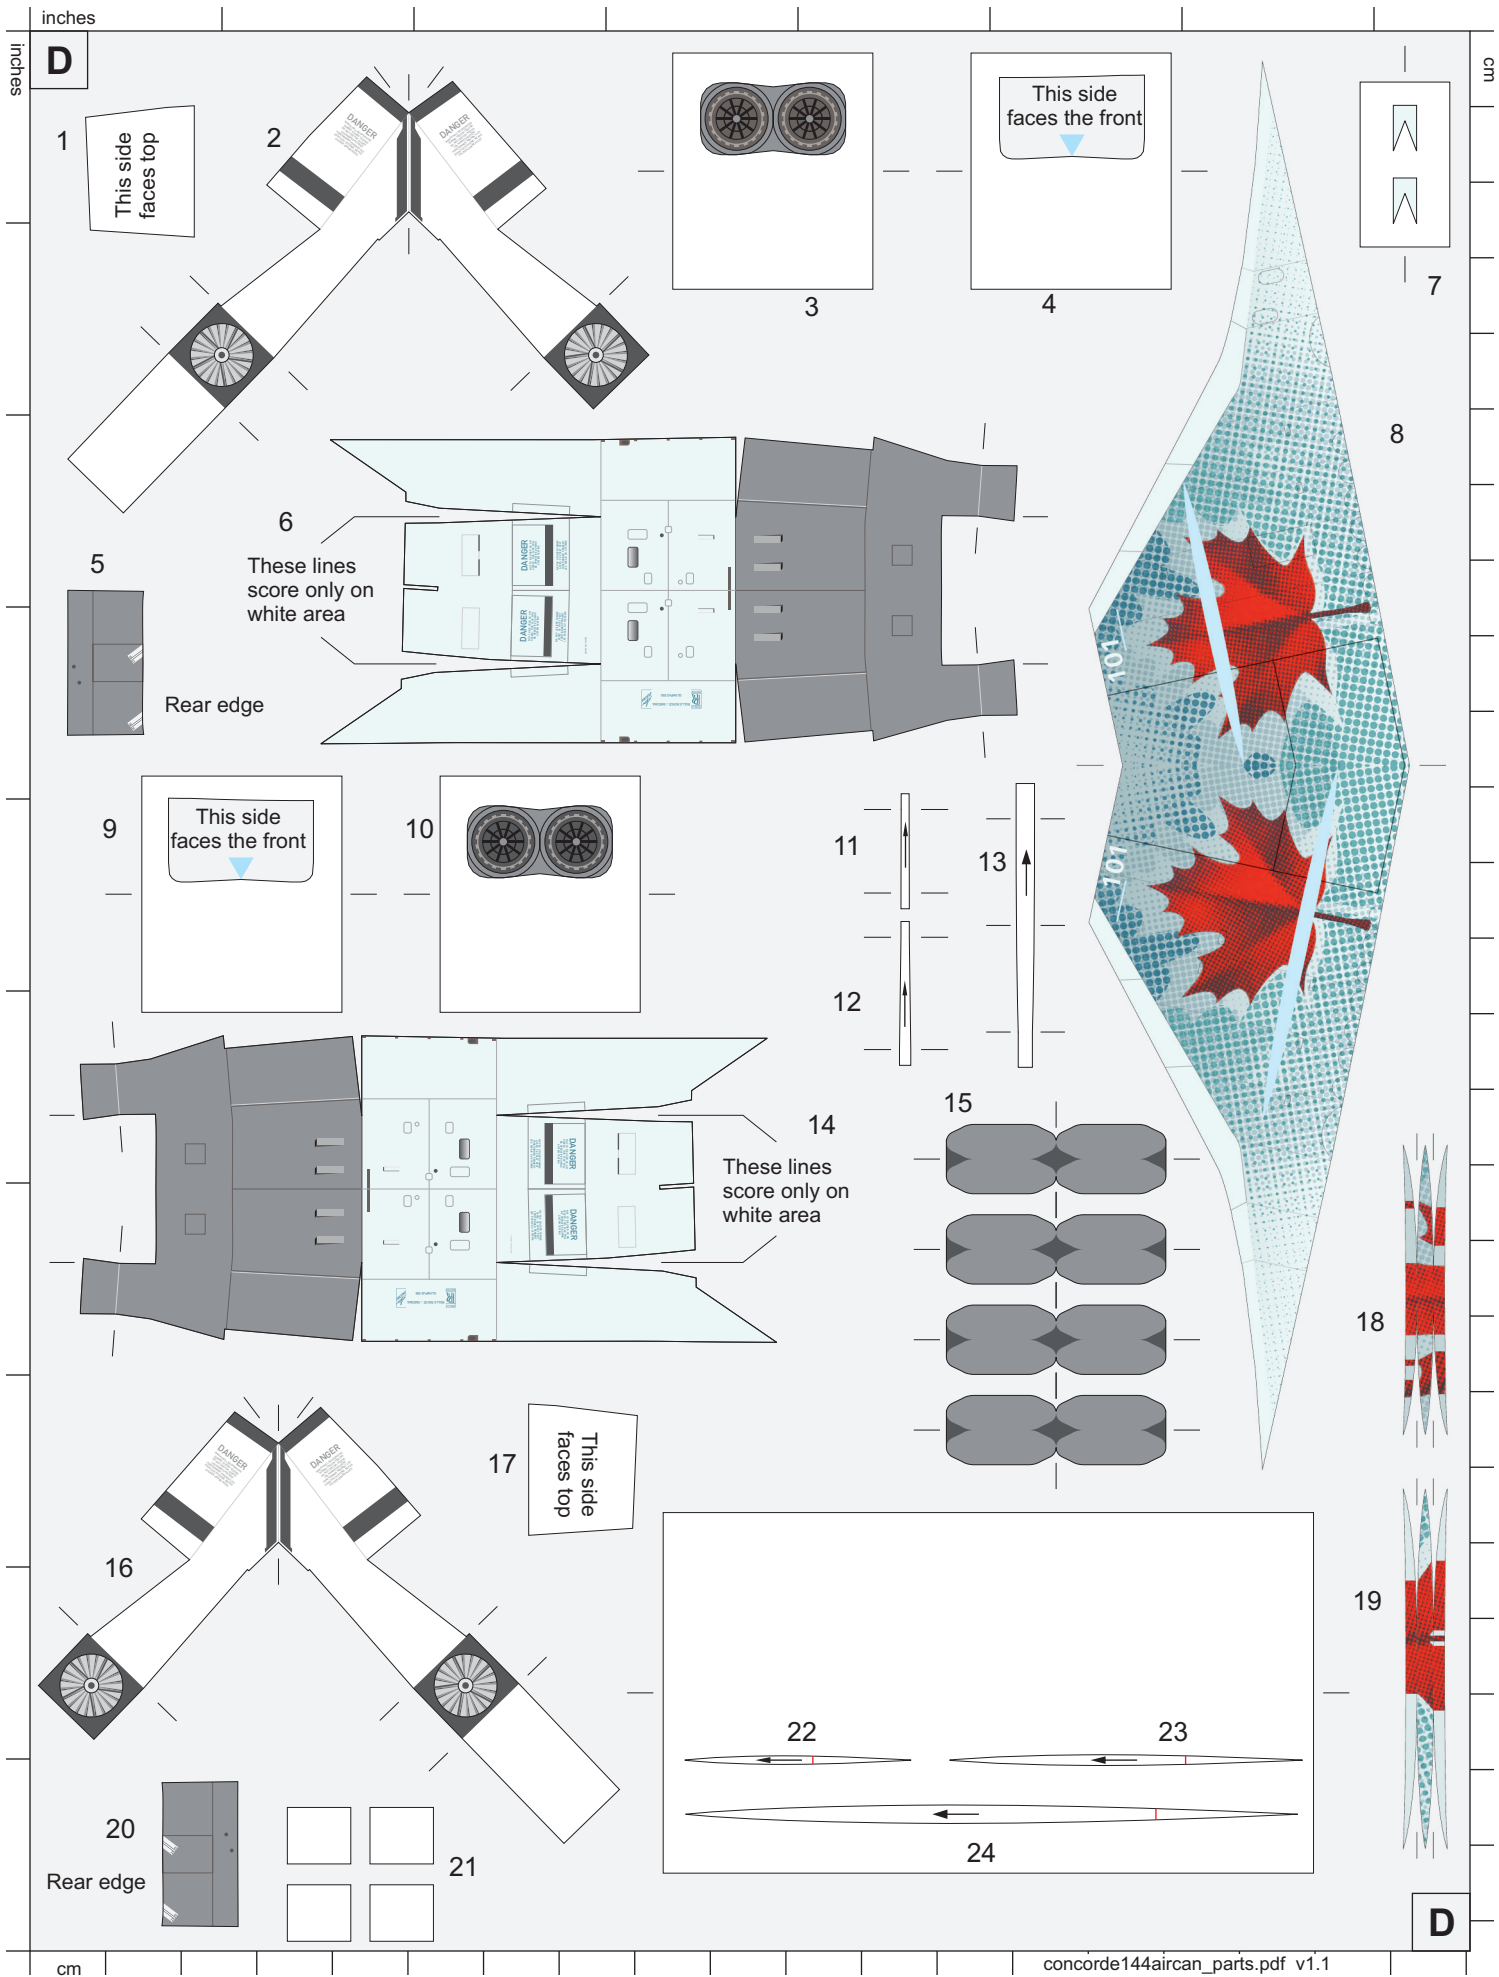

- Seating:** 30 seats in total, arranged in three rows of three seats per side (3-3-3).
- Front Row:** Marked as unusable with a red circle and a diagonal line through a maple leaf icon.
- Rear Row:** Marked as unusable with a red circle and a diagonal line through a maple leaf icon.
- Exit Row:** The row immediately behind the front row is marked as an exit row with a red dashed line and the text "EXIT ROW".
- Overhead Storage:** Indicated by a blue dashed line and the text "OVERHEAD STORAGE".
- Labels:** "AIR CANADA" is printed in large red letters across the middle of the cabin.
- Directional Arrows:** "front" with a right-pointing arrow is on the left side, and "front" with a left-pointing arrow is on the right side.

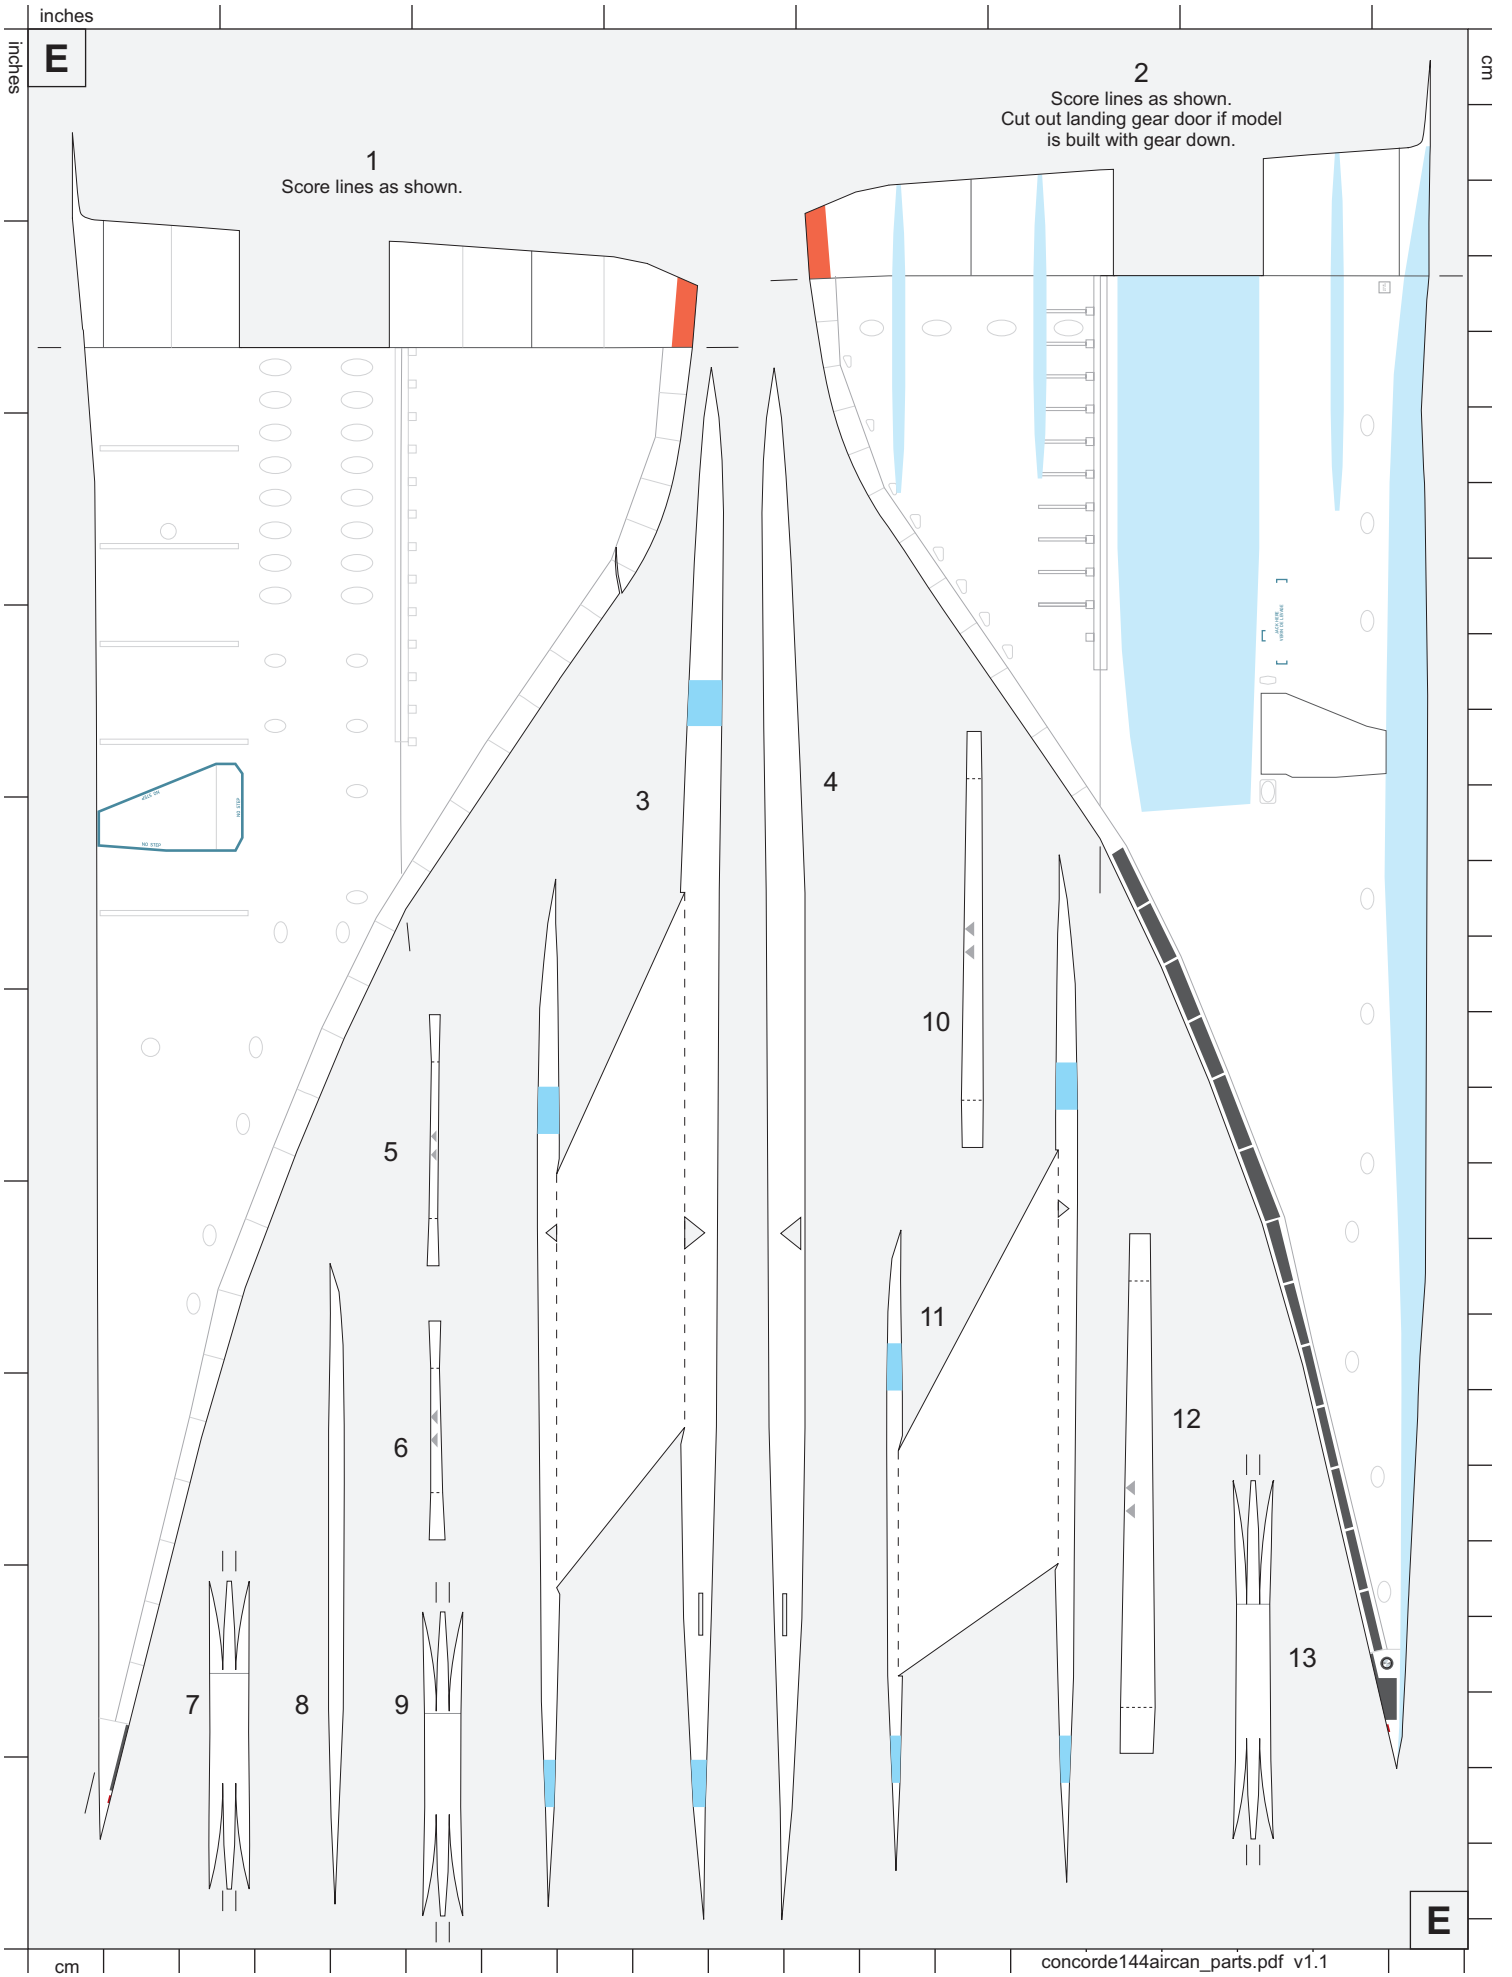

Bottom Diagram (Reconfigured 2-2-3/2-2-2 Configuration):

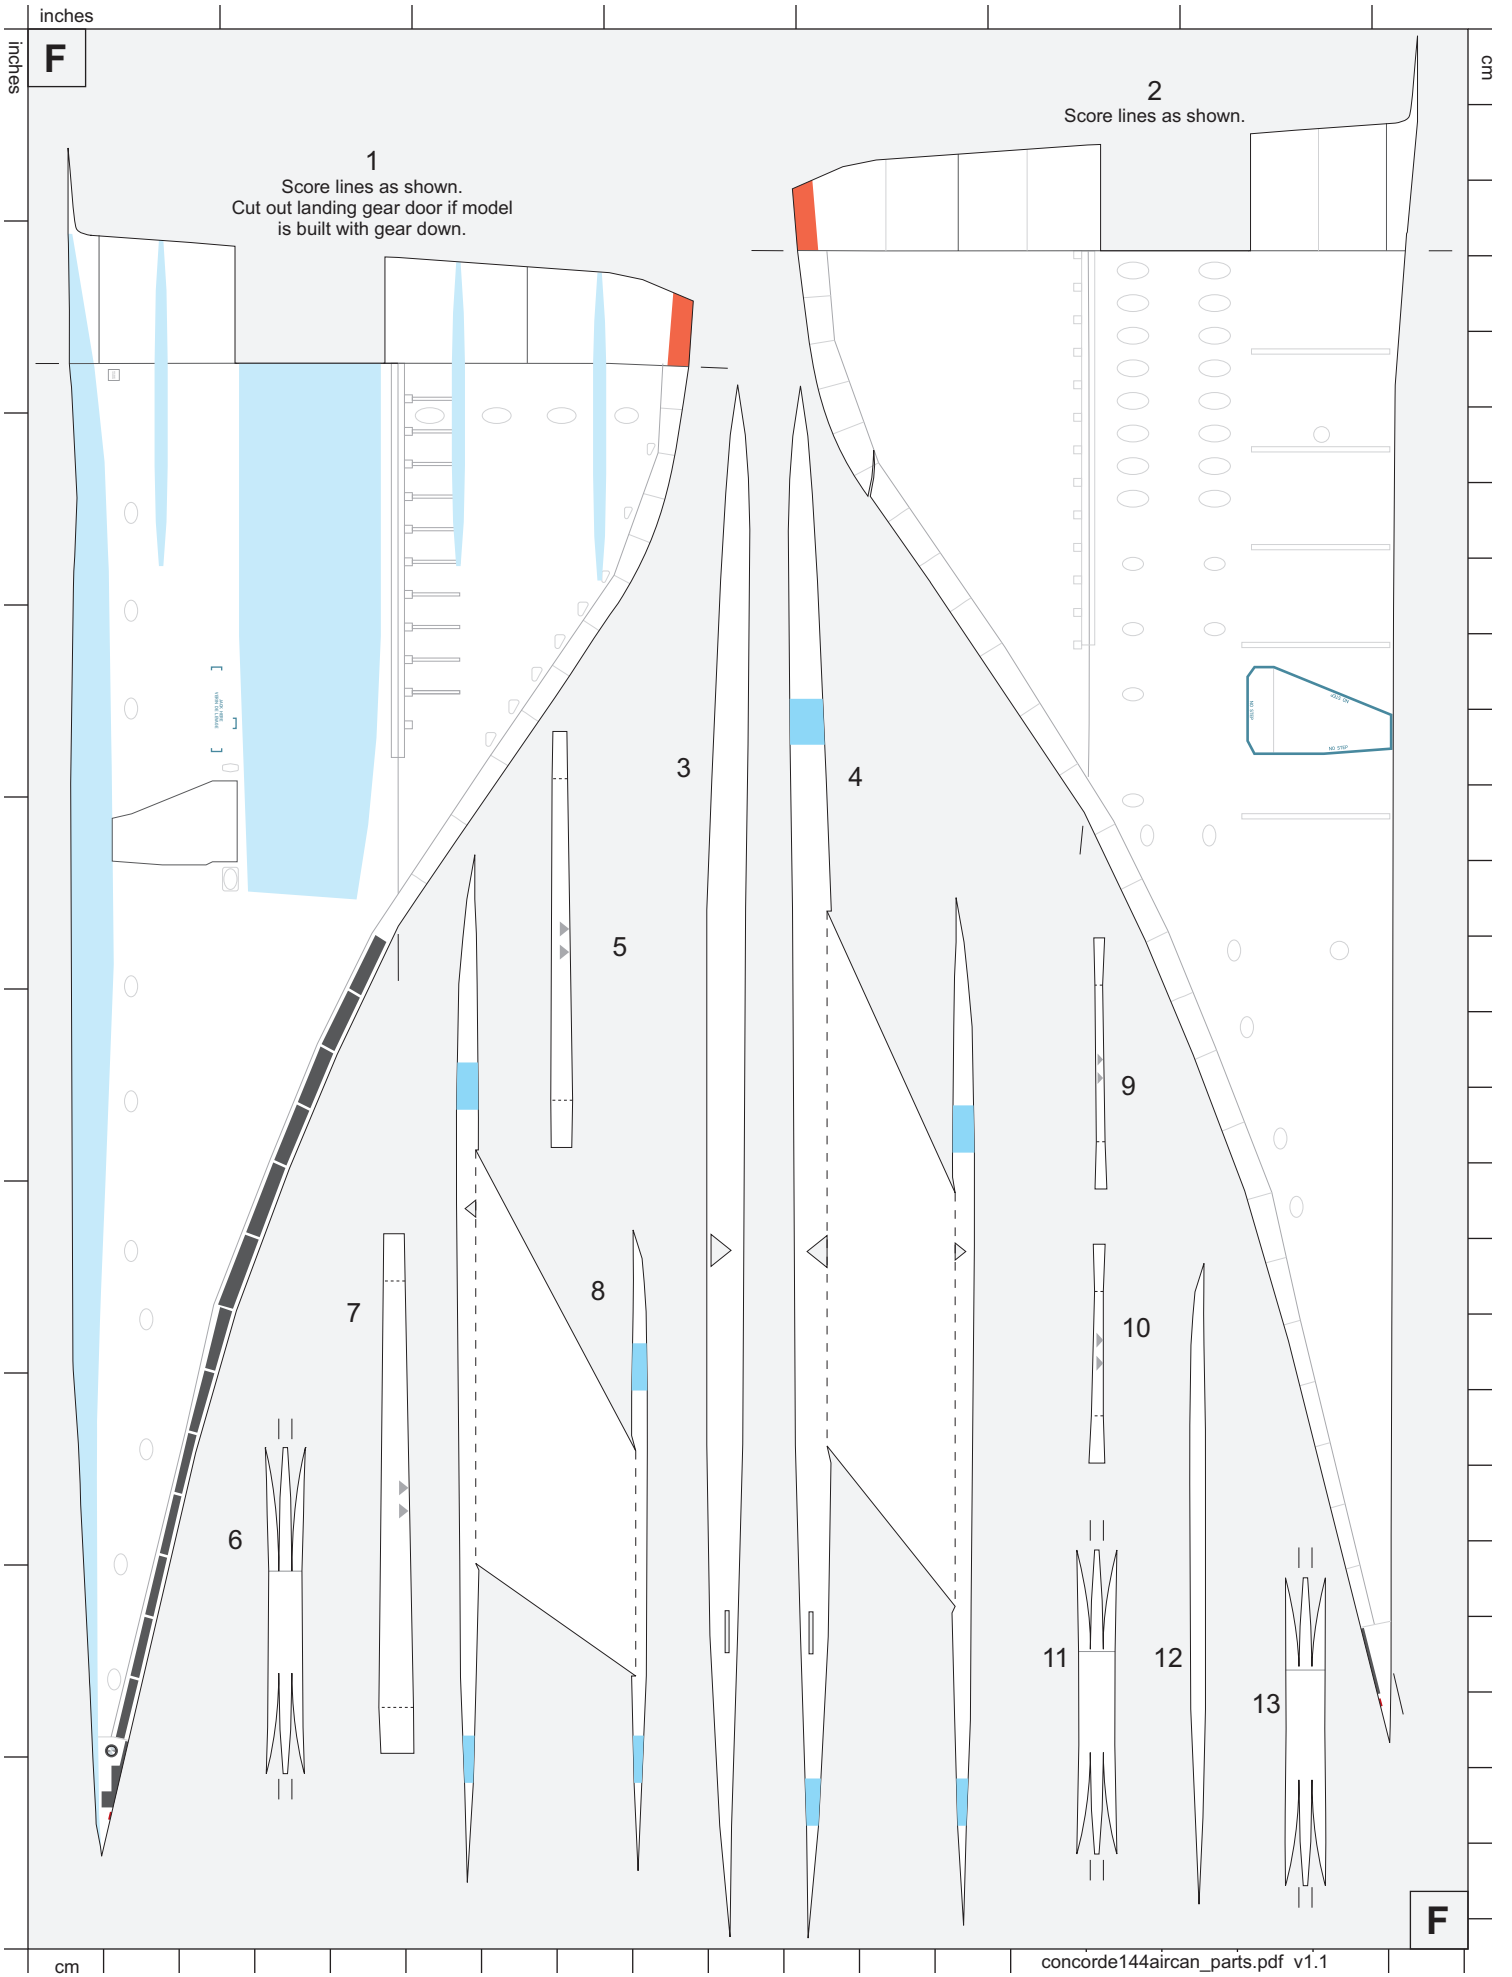

- Seating:** 28 seats in total, arranged in two rows of three seats per side (2-2-3) and two rows of two seats per side (2-2-2).
- Front Row:** Marked as unusable with a red circle and a diagonal line through a maple leaf icon.
- Rear Row:** Marked as unusable with a red circle and a diagonal line through a maple leaf icon.
- Exit Row:** The row immediately behind the front row is marked as an exit row with a red dashed line and the text "EXIT ROW".
- Overhead Storage:** Indicated by a blue dashed line and the text "OVERHEAD STORAGE".
- Labels:** "AIR CANADA" is printed in large red letters across the middle of the cabin.
- Directional Arrows:** "front" with a right-pointing arrow is on the left side, and "front" with a left-pointing arrow is on the right side.
