

- Connect body halves at the top with the neck PopLock and head.
- Crease and fold legs into rectangular boxes. Use tabs to connect legs in the back.
- Attach feet.
- Connect legs at hip and use the tabs to secure the upper leg panels.
- Fold shoulders. The long bar is tucked between the outward facing panels so that the two sockets line up for arm connection later.
- Fold arms into rectangular boxes. Use small tabs to secure fist fronts and large tabs to secure the box shape.
- Connect arms to shoulder sockets. The inner arm connects to the tucked in bar and socket.
- Connect shoulders to body and ROCK ON
